IMPORTANT NOTE TO GEORGETOWN STUDENTS:

- Students may choose from Grado and Licenciatura classes. It is important to register in the correct section or group of each class.
- With the exception of classes offered in the Humanities schools (Philosophy, Philologies, History, Art /Music History, Geography), students **may not** enroll in first year classes. They can, however enroll in first *ciclo* classes within the licenciatura system (do not confuse curso with ciclo).
- In the Humanities schools, there is a maximum number of 5 Reunidas (which include GU) permitted in each class section or group.
- Information found on web concerning *matrícula* only applies to regular UCM students and does not apply to GU students. Likewise, some references in the academic calendars do not apply.
